

# ROCKY FLATS ENVIRONMENTAL TECHNOLOGY SITE REGULATORY CONTACT RECORD

---

**Date/Time:** June 19, 2001/ 2:30 pm

**Site Contact(s):** Carolyn Hicks  
**Phone:** (303) 966-5773

**Regulatory Contact:** James Hindman  
**Phone:** (303) 692-3345

**Agency:** CDPHE

---

**Purpose of Contact:** Request modification of approved closure plan for GB642 in Set 6, Building 777

---

## Discussion

The approved closure plan for GB642 in Set 6, submitted with Modification #6 to the 776/777 Decommissioning Operations Plan (DOP), says the glovebox will be removed and managed as mixed waste because it is not in sufficient condition to conduct debris rule treatment (it is heavily stained.) However, Building 776/777 personnel have had excellent results using a chemical decontamination technology, and believe use of this technology will allow successful treatment of the glovebox to meet a clean debris surface.

Mr. Hindman approved the use of debris rule treatment as the selected closure option for this glovebox. If the treatment is successful, the glovebox will be managed as non-hazardous waste. If the treatment is not successful, the glovebox will be managed as mixed waste. The wipes used to clean the glovebox will be managed as mixed waste.

If the treatment is successful, an update to the closure plan will be submitted with the next DOP minor modification request to document the changes to the selected closure option, closure activities, and waste disposal requirements.
